Year 2016

The Guide to Communicating Carbon Pricing was prepared for the Partnership for Market Readiness (PMR) and Carbon Pricing Leadership Coalition (CPLC) by a team of consultants led by Climate Outreach with support from Climate Focus, Dr. Louise Comeau and Fenton Communications. Daniel Besley and Isabel Saldarriaga (World Bank) provided substantive input and managed the project. a critical study on effectiveness of legal guidelines to fight vehicle pollution laws. Mohan Sopan Gawai. S.K.Hingole. 11-Sep-2019. legal protection available to working women in the globalised economy a study in the indian perspective. Bijal A. Shah. Smita Karve.Â a comprehensive study of the pharmaceutical patents right to health a human rights perspective in the indian scenario. Joglekar Abhay Avinash. mannalal r. Pandiya. 15-Jan-2019. right against arbitrary arrest and detention in navimumbai with special reference to constitutional and human rights approach. Gauri Vijay Kala. Bansal pushpa ajay and Smita karve. Clearing the AIR. A critical guide to the new national emission ceilings directive.Â It explores the effect the Directive will have on emissions in the European Union and what the new rules mean for both those causing pollution and those fighting to stop it. As a result of the new Directive, the health impact of air pollution in the EU is expected to be halved by 2030, compared to 2005 levels.Â Speed up legal actions against Member States failing to comply with air pollution laws. â€¢ Reject the flexibilities which Member States can apply for from early 2017. â€¢Â for cars, vans and heavy duty vehicles. EU type approval rules are currently being updated and â€œReal Driving Emissions test proceduresâ€ (RDE) being developed to better reect on-the-road emissions.
